Here is just a sampling of our new

- 2) Sole Proprietor in Leicester, MA in business for 15 years, \$65K for an Excavator, did not have any credit, always paid cash. We were able to approve, 24 months, low rate, little advance.
- 3) Start up restaurant in Worcester, MA, \$80K, lots of experience, approved for 60 months, acceptable rate, able to open in September, which was target date.
- 4) Start up manufacturing plant in Ohio, looking for \$30K for Grinding Machine, necessary equipment to open, lease approved for 36 months, good rate.
- 5) Corporation in business for 25 years in Chicago, \$235K for Excavator, very poor credit, with additional collateral we got approval. 48 month lease. Now client can make more profit to offset cost of lease payments.
